New Haven, Ct 06512

Dear Captain Boyton,

The members of our community are concerned about the LGN facility that endangers the health and safety of Long Island Sound. This is a facility that should not be built.

Sincerely,  
*Ann-Marie Chang*  
Ann-Marie Chang

Liquefied Natural Gas Facility does not belong in Long Island Sound. This would endanger the health and safety of Long Island Sound and shouldn't be built.

Dear Captain Boynton,

Regarding the LNG facility in the Long Island Sound, I request that this facility not be built because it endangers our health and safety, limits public access and sets a dangerous precedent by industrializing the Sound. Thank you for your consideration in this matter.

I would like to express my concerns regarding the building of the LNG facility in the Long Island Sound. I believe that it presents a further threat to the already fragile environment that exists there. I also feel that it will endanger our health and safety.

Thank you,

Re: Proposal for Industrialization of Long Island Sound

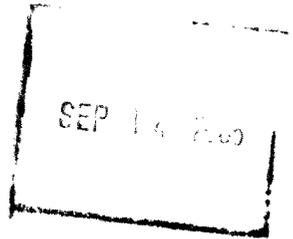

Dear Captain Boynton,

Many parts of New Jersey have become a pollution nightmare due to the industrialization of the area. You not only see it, you smell it. Don't let the money mongers destroy Long Island any further. Stop the natural gas facility. We pay the highest taxes in the nation and now this, why should any of us stay on Long Island if this kind of facility is permitted. Enough is enough with destroying our natural habitat. Our air quality and safety must be secured.

Sincerely yours,

A handwritten signature in cursive script, appearing to read "Lauren Stank", written over a horizontal line.

Dear Captain Boynton,

I understand that Broadwater is seeking to build a liquefied natural gas facility in the middle of Long Island Sound. I am writing to you as I am a resident of Long Island and would like to let you know that my family and I are dead set AGAINST this.

This LNG facility endangers the health and safety of Long Island Sound and should not be built. This facility also limits public access and sets a dangerous precedent of industrializing Long Island Sound.

If you could please take a moment to respond to me in writing with your position on this it would be greatly appreciated.

Thank you.

Dear Sir,

Please let it be known that as a life long citizen of Long Island that I am **fully against the building of a liquefied natural gas facility** anywhere in or around the water's of Long Island.

A facility of this kind would limit public access and set a dangerous precedent of industrializing the Sound. Anything that would endanger the health and safety of the people who live in our area is totally unacceptable.

I would greatly appreciate a written response sent directly to the address above. Your attention to this matter is greatly appreciated. Thank you for your service.

Yours truly,

A handwritten signature in cursive script that reads "Brenda Scali Hall".
